

DEPARTMENT OF MECHANICAL ENGINEERING
&
CENTRE FOR DESIGN ENGINEERING AND PROCESS SIMULATION

is organizing a

TWO DAY HANDS - ON TRAINING ON “3DVIA – COMPOSER”

- 3Dvia Composer allows you to repurpose existing 3D design data to more rapidly create and update high quality product deliverables including documentation, technical illustrations, animations, and interactive 3D experiences.
- By leveraging the power of 3D, you can provide your customers, partners, and stakeholders with more clear, easily understandable product communications that significantly improve their ability to understand and retain complex information.
- 3Dvia Composer also helps product deliverables to be created earlier in the design process, improving time to market and minimizing costs associated with rework when designs change.
